Replay - Construction

FRAME - The Replay frame uses a combination of soft wood and OSB to form its shape, with cardboard applied to help curve the back corners. Hardwood strips are used to house the core screws, bolts, t-nuts and house the webbing. The curved nature of the frame is achieved by cuts made by a CNC cutting machine. The frame is then wrapped in foam and further padded with ball-fiber and K-cloth along the inside arms and back for overall softness.

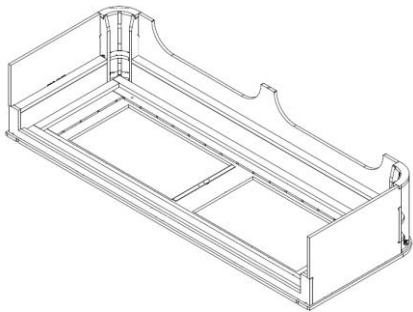

SEAT/BACK SUSPENSION - Webbing Suspension is applied to both the back and seat deck.

SEAT CUSHION - Replay and Replay Club seats are supported by a 2.2 foam base with a 4.0 Visco (memory) foam topper and support edge for perch sitting. Ticking bags filled with feather and foam 'bits' are then positioned on-top, giving you that plush seating experience.

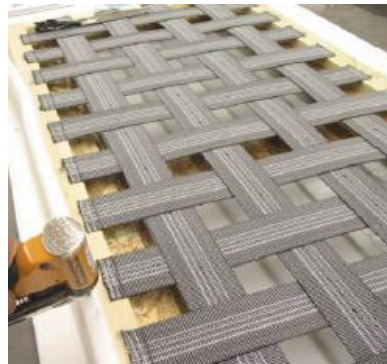

LOOSE CUSHIONS - The Loose Cushions come with Replay series 3_148- and are filled with 100% feather; These pillows come in the same cover choice chosen for the piece. Additional cushions are SKU'd for purchase and any fabric or leather can be chosen. Replay Club does not include these with purchase as the seat depth is narrower and a more formal design/sit.

CONSTRUCTION:

The inside seat-deck [A] supports the **webbing suspension** and is padded with high density foam and lining.

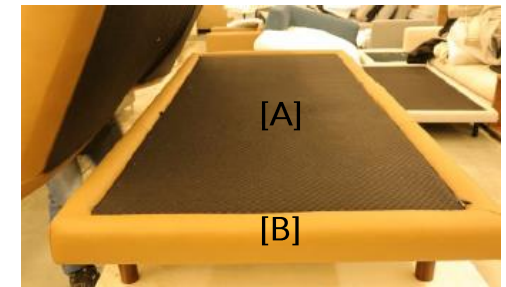

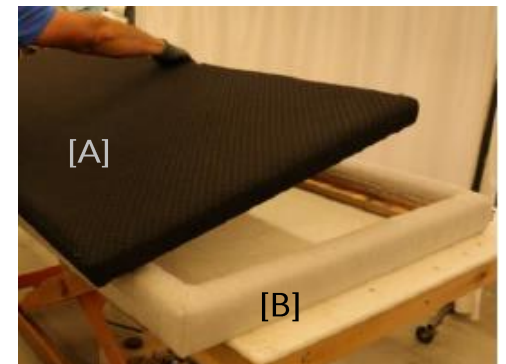

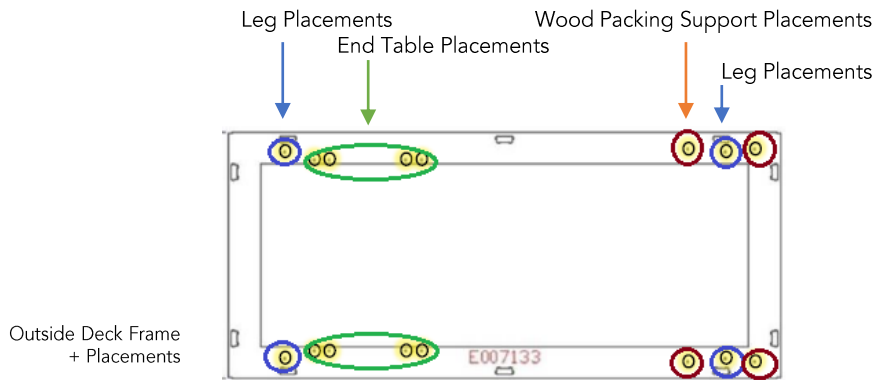

The outside seat-deck [B] is first padded with ring flex and then foam. The **custom cover** of choice is then placed over the outside seat-deck and upholstered using staples. The inside seat-deck [A] and outside seat-deck [B] are secured together with screws and finished with a dust cover.

The Replay seat **cushion** has a **2.2 foam foundation and a feather-foam mixed topper** that gives you that plush feeling (housed in a compartmental ticking bag).

Replay History

First introduced in 2002, Replay Series 30001- was EQ3's trademark sofa. Its sculpted form and unique look lent itself well to the bold modern design.

The original was made, and sat, very differently, with a tight foam back and foam seating.

Discontinued in 2018 we welcomed the re-envisioned 3_148- Replay and 3_147- Club
