THE MAKING OF

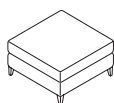

Salema is composed of a mix of hardwood, softwood and OSB (oriented strand board). Salema's back and arm profiles mirror each other making the series extremely versatile, cozy and modular.

The seat and back cushions are attached. The seat cushions are constructed with high density and high resilient foam wrapped in wadding while the back cushions are channelled into three compartments and filled with blown polyester fiber.

Salema has a sinuous spring seating suspension and webbing back suspension.
